AFFAIRS AT THE STATE CAPITAL.

Our Special Albany Despatch. ALBANY, April 9, 1869.

One of the most highly interesting scenes of the seas occurred in relation to a bill introduced filtuer by Senator Foote or Loveland, called the "Personal Liverity" bill which was referred to the Judiciary Committee a 'una time h tance to the Fug tive Stave law, disrespector the law of Congress it e decisions of the Supreme Court of the United States, and disregard of the constitution. In a word, it undertook to prevent the return of any fugitive slave who should be caught in this State. The Committee on the Judiciary made their report this morning, written and read by Senstor Diven. It repudiated the obscure and revolutionary cottine of disobedience to the laws of the general government, declared it to be the duty of the people to submit to the laws of Con-gress and the decisions of the courts, State or federal, until they are reversed or repealed, thus sustaining the right eir runaway slaves in this State The report is elaborate and explicit. It is signed by Mr The report is materials

Diven and Mr. Noxon, republicans, and agreed to by
Senators John D. Williard and Scott, democrats. Senator Senators John D. Willard and Scott, democrats. Senator Lamont, republican, was the only member of the Judiciary Committee who favored resistance to the Fugitive Slave law by the people of this State. The latter Senator delivered his opinions orally and very ably, taking the ground which the stump orators of the republican party bave heretofore occupied. Mr. Divere, in reply, declared that the republican party were in favor of sustaining the compact of the United States constitution and the compromises which the is aws of Congress have enacted. He, as a leading republican, denounced the doctrines of Gerrit Smith and Hoyd Garrison, but made no direct allusion to Seward's Rochester revolutionary and incondary doctrines. During these proceedings the chamber was crowded with spectators, and overy Senator was present. The position taken against the "Personal Liberty" bill by two of the strongest republican members of the Sanate (Mesers. Diven and Noron) was entirely unexpected by us outsiders, and I think a majority of the Senate. The democrats in that body, and the few lingering outside, appeared highly gratified at the introduction of the resolution that the bill ought not to pass. Perhaps the example of two other republican Legasitures in retusing to pass a law of this nature had some slight effect upon the action of the Judiciary Committee.

The Senate adopted the resolution for a change in the

ture had some slight effect upon the action of the Judi-ciary Committee.

The Senate adopted the resolution for a change in the constitution allowing any nigger the right of suf-frage. It will be subortized to the next Lagonsture, and if that body also agree thus to amend the constitution, then the same Legislature will make early provision to submit the question to the people in senson to assortant that Seward will get the negro vote in 1850.

Mr. Smith, of New York, presented this preamble? and resolution, which was laid over for the day:—

Mr. Smith, of New York, presented this preamble? and resolution, which was laid over for the day:—

Whereas, the Court of Appeals has decised in favor of the Municipal police of the city of sew York; and, whereas, said decision seems to be in favor of paying said ded police in fail to this time, and it will therefore be necessary to provide the means for and pay, and inserting in the New York tax levy the smourt of \$500,000; therefore.

Resolved, That the Autorney General report forthwith to this House the effect of such decision, and if, thereby, the city of New York will become obligated to pay said police.

Senator Mather procured the passage of a similar resolution in the Senate. The inquiry extended so far as to desire an opinion whether the State or city of New York was responsible for the payment of the old police during the last two years. The answer is expected to morrow.

The decision of the Governor, whereby he refuses to the free with the sentence of death passed upon Mrs. Hartung for the alleged morder of her busband by means of passon, seems to meet with much disappointment. This morning Mr. Buffington, a member of the Assembly from the county of Cattarasque, introduced a bill by unanimous consent, authorizing the commutation of the sentence to the years' imprisonment in the Sing Sing State prison. The bill was referred to the Judiciary Committee for a report on this novel and original proposition. Not withstanding that public opinion in this city, and even in the Legislature, is decidedly adverse to the execution of this enfortunate woman, still it is regarded as an attempt to interfere with the Executive prerogative, which will establish a dangerous precedent; and if this bill should enacted, every criminal hereafter would apply for legislative interference whenever the Executive refuses to arrest Judgment.

An advoit scheme was invented by the justices and

establish a dangerous precedent; and if this bill should be enacted, every criminal hereafter would apply for legislative interference whenever the Executive refuses to arrest judgment.

An adroit scheme was invented by the justices and clerks of the district courts of the city of New York, by which their salaries were to be increased from two to four thousand dollars a year. Just as the bill was about being read for the last time this morning in the Assembly, Mr. Reilly moved to recommit the bill to amend by striking out the section which increases their salaries. He was supported by Mr. Spencer, Mr. McLeod, Mr. Conkling and Mr. Opiyke, and the bill was thus sent back. So the learned and astate justices and their active and adroit clerks will be compelled to perform their duties for the salaries now received. This proposition to increase the salaries may increase the salaries may expected in the bill in a very ingenious manner, and was only detected at the last instant.

Since the passage of the amended Charter bill in the House of Assembly yesterday there seems to be a "sober second thought" amongst the republican conspirators who drove it through that body under whip and spur. A consultation was beld this morning, at which several of the insiders of the party were present, and though nothing definite can be learned of the conference, selficient indications were exhibited that an organization is being formed among strong and influential members of the party in the city of New York to prevent its passage through the Senate. It was more than hinted that he £coelency would employ his veto power, in case the bill comes in the executive chamber containing the sections which extend the period of certain officials beyond the time they were elected by the people under law and charter. His Excelency would employ his veto power, in case the bill comes in the executive chamber containing the sections which extend the period of certain officials beyond the time they were elected by the people under law and charter. His E

ceeded by injunction from preventing the laying rails be-low Canal street ever since 1857; and now, though the matter is still in court, the Legislature steps in and un-dertakes to override the injunction. Mr. Opdyke, who is largely interested in property lying along Washington street, threatens further injunctions.
